

Tablets that Benefit **YOUR AGENCY**

The latest tablets powered by Verizon 4G LTE.

Tablets help you and your mobile workers experience true mobility on-the-go. Access corporate email, media-rich presentations and secure files anytime. The high-resolution display puts detailed images like vehicle diagnostics or automated transportation driver logs at your fingertips. Verizon Wireless has the tablets and tools to help your field workers stay productive.

Now, you can tap into Verizon 4G LTE, the largest 4G network in America, with the Samsung Galaxy Note® 10.1 and Samsung Galaxy® Tab 2 (7.0). Designed to keep you mobile and connected, these tablets will help you reinvent the way you work. Running on the Android Operating System, these tablets connect you to email, file downloads and the web at speeds up to 10x faster than Verizon 3G. Both are small and portable, which makes them easy to transport on-the-go.

Additional 4G LTE Tablet benefits:

- Dual-core processors that put the power you need behind your business.
- Razor sharp screen for maximum viewing experience.
- Adobe® Flash® technology for an optimal web experience.
- Use as a mobile hotspot to share wireless signal with up to 5 Wi-Fi-capable devices.
- Access to over 100,000 apps available in the Google Play Store.
